

Orchestrating Today's Technologies

Since 1965

July 2013

A Message to our Customers:

On behalf of everyone at Office Business Systems, thank you for putting your trust and confidence in us. Our success and accomplishments in this industry to date, have been a direct result of loyal and supportive customers like you.

We would like to take this opportunity to announce that Entel Systems, New Jersey's largest Toshiba distributor for digital, hybrid, pure IP and hosted telephone and voicemail systems, has acquired our Toshiba telephone division. Those customers that lease their equipment from OBS will continue to remit payments to OBS for the remainder of the lease term. OBS will continue and expand operations in its voice recording, video and network technology divisions.

This acquisition by Entel will provide the ability for customers to expand their telephony technology to include the highly regarded product lines of Avaya, Cablevision, Optimum Light path, Shoretel Sky and Windstream.

We invite you to take a look at www.EntelSystems.com, in order to familiarize yourself with the many new benefits available to you moving forward.

Entel will provide you with personalized service, additional support and expanded resources. We are fully aware that none of this would be possible without your continued support, and for that we are extremely appreciative. An Entel Representative will call you in the coming weeks to explain how this acquisition will provide immediate and future benefits to you. Please call Entel directly at 201-447-2000 for anything related to your telephone system.

We look forward to working with you for many years to come.

Sincerely,

Douglas Smith
