### Your One-Stop, Full-Service Telecom Partner

Founded in 1992, Entel Systems is a proven leader of converged communications solutions and integrated services. We specialize in designing, installing and supporting integrated data & voice communications network infrastructures for small to medium-size companies.

Our mission is to help your organization harness the powerful technology that's available today and to utilize it as a **powerful strategic business tool** that enables you to save money, improve your employees' productivity while enabling you to serve your customers better.

We recognize that everyone has a choice in life. We are committed to making that choice easier for you because we focus on what is important to you. Many companies profess outstanding customer service and value, but at Entel, it's more than a statement...it's an attitude, a practice and a passion!
